Course Electives					
<p>Review the online course catalog with each child and identify six choices below in order of preference. After submitting your registration for camp, you will need to complete a separate "Course Electives" form for each child, identifying their six choices.</p> <p>Your children will be assigned to two classes only. Our best effort is made to assign them to their top choices, but some classes are held at the same time, or they are very popular. Please encourage your child to try new classes. When a child wants to repeat a class, we may assign that child to one of their other choices to give another child an opportunity to attend that class. That doesn't always happen, but it can. We will send you a notification of class assignments before camp begins.</p>
